

Leandra's Covid 19 Hygiene statement

For the safety of both our customers and staff we have put in place additional health and safety procedures. These extend to personal hygiene of our staff, cleaning procedures within the restaurant, PPE and social distancing. The below details are published to give guidance for our customers visiting the restaurant.

Social distancing

All seating arrangements are in place to meet the 1 metre+ government advice for social distancing. Where tables and chairs have not been removed, certain seating may be placed as 'not in use' to maintain distancing. We are unable to guarantee certain tables - tables will be allocated to customers for a time period of between 1.30hrs to 2hrs maximum depending on social bubble size. All tables must be returned after their allotted time.

PPE

All staff members will be wearing face masks/visors throughout the restaurant. Staff members will also be adhering to strict uniform and personal hygiene requirements when on the premises.

Sanitising station

There will be a sanitising station at all entrances and exits for customers and staff. Please ensure that these are used on entry to the restaurant.

Toilet entrance will have a sanitising station.

Following these guidelines will help protect both our staff and customers in these difficult times.

STAY ALERT – CONTROL THE VIRUS – SAVE LIVES
